# Marcin Wiatr

AI Strategist & Solution Architect | Driving Digital Transformation  
Through Technology Leadership  
London, United Kingdom

## Summary

I help organisations turn ambitious ideas into real-world impact by combining deep technical expertise with strategic leadership. My focus is on Artificial Intelligence (AI), Software Solution Architecture, and guiding teams through Digital Transformation.

Over the past 15+ years I've founded companies, scaled engineering teams, and advised startups and global organisations alike. I bring together hands-on knowledge of cloud, data, and compliance with experience in technology consulting and business strategy — enabling companies to innovate with confidence.

Whether it's architecting AI-driven platforms, leading cross-functional teams, or shaping long-term technology roadmaps, I thrive at the intersection of strategy and execution. My goal is always the same: to deliver solutions that create measurable value.
